## CREW THOUGHTS

The crew was appalled at the horrible AI slop Starfleet Command included in their [June 2026 newsletter](#). Several responded with letters detailing their concerns and disappointment. **Lt. Lewis** concludes her note with: "We are a club full of smart, eloquent people. Those people should do the writing. We are a club full of smart, exacting people. We will notice when we're being given crap. And we will NOT be happy."

If you haven't yet **officially** joined Starfleet Command, (and the U.S.S. Terminus) there's no time like now! We love "friends and family," but there's nothing like being crew!
